	more than 324 hours, per 24 hours or part thereof	3

1/2/3

The fields "1", "2" and "3" displayed in the tables, along with the additional information, represent the respective fee due for the respective category, according to the storage fee table above.

The obligation to pay for intermediate storage until onward carriage in accordance with the storage charge table shall apply continuously and shall be totalled over the period of utilisation

If the no-fee time slots fall on or include public holidays, the no-fee time slot shall be extended by 24 hours for each public holiday.

The conditions are deemed to have been accepted when the period of intermediate storage for onward carriage is used following an arrival at the terminal.

For onward transport by road, storage ends at the moment of departure (out of the terminal) of the transport vehicle carrying the loading unit. For onward transport by rail, storage ends at the moment when the respective train leaves terminal. Other contractual agreements may apply.

DUSS reserves the right to limit the quantity and storage duration of the load units stored should this be necessary to prevent capacity constraints and overloads.

Tank and heavy cargo LUs with a height of less than 2,435 mm (8 feet) will be charged as one load unit, even if they can be stacked.

Stackable FRCs are only treated as a single load unit when they are stacked and securely fastened to each other, and the total height does not exceed 2,435 mm (8 feet).

Changes to the fees and conditions may be made at any time and will be announced on the first day of the month before they come into force.

A/B

At this point, a one-off charge is made per loading unit for providing the extended parking space.
