1/2/3

The fields "1" , "2" and "3" displayed in the tables, along with the additional information, represent the respective fee due for the respective category, according to the storage fee table above.
The obligation to pay for intermediate storage until onward carriage in accordance with the storage charge table shall apply continuously and shall be totalled over the period of utilisation
If the no-fee time slots fall on or include public holidays, the no-fee time slot shall be extended by 24 hours for each public holiday.
The conditions are deemed to have been accepted when the period of intermediate storage for onward carriage is used following an arrival at the terminal.
For onward transport by road, storage ends at the moment of departure (out of the terminal) of the transport vehicle carrying the loading unit. For onward transport by rail, storage ends at the moment when the respective train leaves terminal. Other contractual agreements may apply.
DUSS reserves the right to limit the quantity and storage duration of the load units stored should this be necessary to prevent capacity constraints and overloads.
Tank and heavy cargo LUs with a height of less than 2,435 mm (8 feet) will be charged as one load unit, even if they can be stacked.
Stackable FRCs are only treated as a single load unit when they are stacked and securely fastened to each other, and the total height does not exceed 2,435 mm (8 feet).
Changes to the fees and conditions may be made at any time and will be announced on the first day of the month before they come into force.

A/B

At this point, a one-time fee for extended capacity usage is charged per loading unit.

The prices shown in the table represent the fee payable for the respective period indicated.
The obligation to pay fees for intermediate storage until onward transport applies continuously, and the fees are accumulated over the entire period of use.
For each hour or part thereof, the applicable fee shown in the table is charged and accumulated over the period of use.
Where indicated, a one-time fee for extended capacity usage is charged per loading unit and location, in addition to the ongoing fee.
If a fee-free time period falls on or includes a public holiday, the fee-free period is extended by 24 hours for each public holiday.
By using the intermediate storage period for onward transport following arrival at the terminal, the customer is deemed to have accepted these conditions.
For onward transport by road, storage ends when the truck carrying the loading unit exits the terminal. For onward transport by rail, storage ends when the relevant outbound train departs from the terminal, unless otherwise agreed by contract.
DUSS is entitled to limit the number of loading units stored and the duration of storage where necessary to prevent capacity constraints and overloading.
Tank and heavy-cargo loading units with a height of less than 2,435 mm (8 feet) are each treated as one loading unit, even if they can be stacked. Stackable flats are treated as one loading unit only if they are stacked together, securely fastened to each other, and their total height does not exceed 2,435 mm (8 feet).
The conditions and fees may be amended at any time. Any amendments will be announced one month before they take effect, effective from the first day of a month.

The prices shown in the table represent the fee payable for the respective period indicated.
The obligation to pay fees for intermediate storage until onward transport applies continuously, and the fees are accumulated over the entire period of use.
For each hour or part thereof, the applicable fee shown in the table is charged and accumulated over the period of use.
Where indicated, a one-time fee for extended capacity usage is charged per loading unit and location, in addition to the ongoing fee.
If a fee-free time period falls on or includes a public holiday, the fee-free period is extended by 24 hours for each public holiday.
By using the intermediate storage period for onward transport following arrival at the terminal, the customer is deemed to have accepted these conditions.
For onward transport by road, storage ends when the truck carrying the loading unit exits the terminal. For onward transport by rail, storage ends when the relevant outbound train departs from the terminal, unless otherwise agreed by contract.
DUSS is entitled to limit the number of loading units stored and the duration of storage where necessary to prevent capacity constraints and overloading.
Tank and heavy-cargo loading units with a height of less than 2,435 mm (8 feet) are each treated as one loading unit, even if they can be stacked. Stackable flats are treated as one loading unit only if they are stacked together, securely fastened to each other, and their total height does not exceed 2,435 mm (8 feet).
The conditions and fees may be amended at any time. Any amendments will be announced one month before they take effect, effective from the first day of a month.
